

IMPORTANT: PLEASE READ!

Please review the information below for important instructions on your camper's medications.

You will find additional answers to your questions on the Frequently Asked Questions pages.

BRAND VS GENERIC

Our pharmacy will dispense generic medications unless otherwise specified by your physician with the words "Dispense As Written" specifically written/indicated on the prescription. Please notify your camper's physician accordingly if you do not want generic prescriptions or over-the-counter medications. It is your responsibility to confirm the prescription is written correctly before submission to the pharmacy.

OVER-THE-COUNTER (OTC) MEDICATIONS

We must have a prescription from your camper's physician for all over-the-counter medications, vitamins and supplements. This prescription should include dose, times to be given and any other detailed instructions for administration.

CONTROLLED SUBSTANCES

All Controlled Substances must be written on an original prescription and mailed to our pharmacy, or sent directly to our pharmacy via E-Script (Electronic Prescription). They may NOT be faxed.

Please provide two (2) separate prescriptions if your camper is staying more than thirty (30) days. We must have one (1) prescription for each thirty (30) day supply needed.

Your doctor should post-date prescriptions, or write "Do Not Fill Until" on the prescriptions, for Controlled Substances with a date two (2) weeks before the camper's session begins. For example, if your camper's session begins on 07/15/15, the prescription should be dated 07/01/2015. If a second prescription is necessary (greater than 30 days at camp) the second prescription should be dated 3 weeks later. In our example, 07/22/2015.

Families with NY doctors – As of March 27, 2016 all prescriptions should be sent via Electronic Prescription (E-Script). For non-controlled substances, and Over-The-Counter items, please have your doctor send prescriptions in as soon as possible. For controlled substance prescriptions, please let your camper's doctor know we will send a fax reminder close to the date of camp, requesting the electronic prescriptions to be sent over to us. Ask them to please send these prescriptions upon receipt of our notice as soon as they can to aid in our providing continuity of care.

REFILLS

If your camper is staying more than thirty (30) days, please make sure your camper's physician includes at least one (1) refill on the prescription before it is sent to our pharmacy. Most prescriptions can be written with refills. All controlled substances require an additional thirty (30) day prescription as stated above.

Do not refill your camper's medication while they are attending camp, as this will cause your insurance company to reject our claim.

INHALERS/ALLERGY

If your child needs an inhaler, allergy medication, or EpiPen, the doctor should provide an Action Plan with dosage and detailed usage when medication is needed based on symptoms.
